ATTN: Mr. Robert L. Morby
Chief - Waste Management Branch

Dear Sir:

Please be advised that PMS Consolidated operating at #7 Guenther Blvd., St. Peters, Missouri - EPA I.D. No. MOD093749919 does not generate more than 100 kilograms per month of a hazardous waste nor does it store wastes for 90 days, or personally transport such wastes.

This facility should be considered a small quantity generator and should have the TSD registration rescinded. This was also the findings of the Missouri Department of Natural Resources - Mo. Generator I.D. No. 01531.

If you should need any further information, please contact me.

Sincerely,

Carl Elsea
Plant Manager
